

RF MEDICAL NEWSLETTER

NOTEWORTHY NEWS FROM RF MEDICAL CO., LTD .

FIRST HALF OF 2022 OVERVIEW

We are fast approaching the halfway point of 2022. During the first half of 2022, we have

- resumed our in-person activities
- expanded sales and marketing activities not only geographically but also in a variety of new fields
- activated social media accounts to communicate with professionals more often and more closely

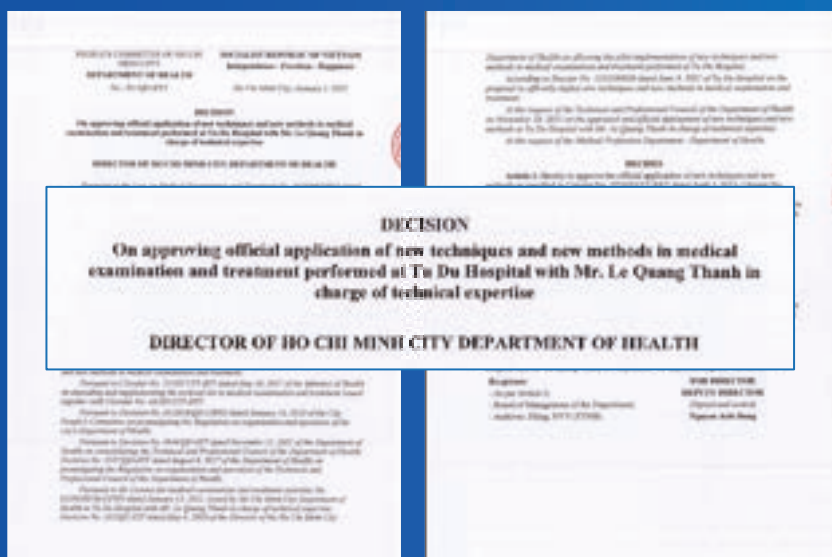

As the World continues to slowly return to a new normal, RF Medical is resuming activities to expand our global footprint, and improving the lives of as many patients as possible

HIGHLIGHTS

New technology approval in Vietnam

On January 5, RF Medical's radiofrequency ablation technology for the myoma treatment was officially approved by the Ho Chi Minh City Department of Health as new techniques and new methods in medical examination and treatment. Due to the COVID-19 outbreak in Vietnam, it took us about two years. This approval was a collaborative effort with Getz Vietnam and Tu Du Hospital, which arranged case studies to facilitate the approval. RF Medical provided a series of RFA training and issued certificates to Vietnamese doctors to deploy the technology, while Getz Vietnam held seminars at hospitals to promote the efficacy of our RFA technology.

SOCIAL RESPONSIBILITIES

RF Medical is once again proud to support Doctors Without Borders (Médecins sans frontières). Financial support will be used for activities to help people suffering from contagious diseases (including COVID-19), wars, and natural disasters in more than 80 countries over the world.

NEW PROJECT

We will be collaborating with MATTER to expand our product portfolio in the US. We are excited to have this opportunity with our existing and upcoming RFA systems. We look forward to a successful collaboration!

WE ARE ON A NEW MEDIA

RF MEDICAL's Myoma RFA System was showcased on national TV in Ecuador

Our RFA system was broadcast on national TV on June 15, 2022, in Ecuador.

Dra Maritza Freire spoke about her experience of Myoma RF ablation during the broadcast.

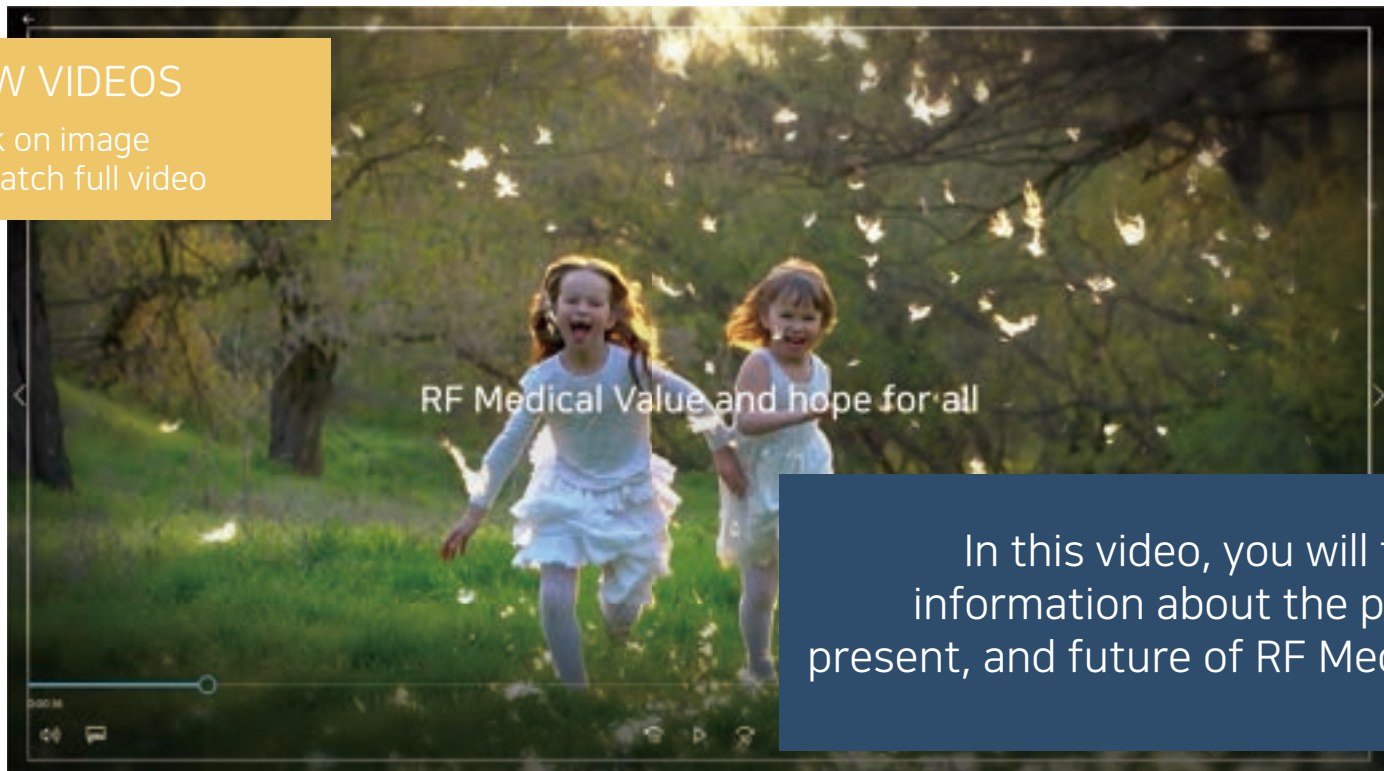

As expected, RFA was launched successfully which is leading to more and more popularity.

THYROID RFA VIDEO FOR PHYSICIANS

RELEASE DATE: 13 JUN 2022

In this video, you will find the information about

- Thyroid RFA Treatment
- Innovative Techniques
- RFA Procedure
- Efficacy
- Safety
- Follow-up

In Korea, most of the congresses and meetings have returned to in-person or hybrid events unlike 2020 and 2021.

■ KOREAN SOCIETY OF OBSTETRICS AND GYNECOLOGY

The 15th Breast and Thyroid Disorders Workshop for OB&GYN was held on February 27 in Seoul, Korea. The workshop's main topics included the basic theory of the BI-RADS and K-TIRADS, as well as practical information for doctors who have just begun breast and thyroid procedures.

■ 42ND CONGRESS OF THE KOREAN SOCIETY FOR PHLEBOLOGY

On April 17, the 42nd congress of the Korean Society for Phlebology took place at EXCO in Daegu, Korea as a hybrid event. We took part in this congress as an exhibitor, and displayed our RF system for varicose vein ablation.

■ KOREAN COLLEGE OF OB & GYN

The 13th annual meeting was held on the 3rd of April in Seoul, Korea as an offline event. We exhibited and demonstrated RF myolysis with a phantom.

■ KSUM 2022 53RD ANNUAL CONGRESS OF KOREAN SOCIETY OF ULTRASOUND IN MEDICINE

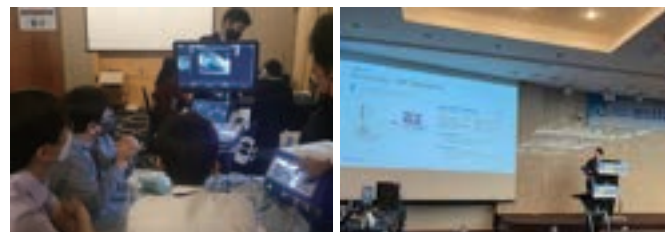

The 53rd annual meeting of Korean Society of Ultrasound in Medicine was open for 2 days from May 12 to 13 at COEX, Seoul. During the congress, a number of speakers shared their tips and findings on thyroid US and Thyroid RFA for benign and malignant nodules.

■ 12TH CONGRESS OF KOREAN SOCIETY OF THYROID RADIOLOGY

The 12th congress of Korean Society of Thyroid Radiology was held on the 16th of April in Seoul, Korea. We participated in this year's meeting as a corporate sponsor, and RFA for thyroid malignancy was discussed during the last session of the congress.

■ KSUS 2022 THE KOREAN SURGICAL ULTRASOUND SOCIETY

The spring meeting of the Korean Surgical Ultrasound Society was held in Seoul, Korea on the 15th of May. RF Medical supported one of the Thyroid RFA sessions by providing our RFA system. We were invited to the "Cutting edge technology of medical industry" session and introduced RF Medical and RFA systems.

Since the COVID-19 outbreak, most events have been cancelled or held virtually. We are finally able to meet in-person and work together with our dedicated EMEA and US teams.

■ ACOG 2022 AMERICAN COLLEGE OF OBSTETRICIANS AND GYNECOLOGISTS

We participated at ACOG for the first time from May 06-08 in San Diego, California.

We introduced the brand MYOBLATE™ for transvaginal myoma RFA for the first time in the US as a simple, cost-effective solution for multiple modalities.

■ SEUD 2022 The 8th Congress of the Society of Endometriosis and Uterine Disorders.

SEUD was held from May 18-21 in Athens, Greece providing online access to the live scientific sessions for the attendees who were not able to attend in-person.

We displayed our RFA system at our booth as a Quartz sponsor. We were also proud to support one of our key opinion leaders, Dra Canete of Spain, as she participated in a round table event and shared a recording of a myoma RFA case.

■ SIR 2022 SOCIETY OF INTERVENTIONAL RADIOLOGY

SIR is the leading event in the US for interventional radiologists. This year, the 47th Annual Scientific Meeting was held for 6 days from June 11 to 16 in Boston, MA. RF Medical participated as an exhibitor during the Industry Exhibition from June 12-14 after a long break since our last participation in 2017, and demonstrated the minimally- invasive procedure with our multi-purpose RFA system.

■ 10th Frankfurt Symposium on Endocrine Surgery and the 2nd International Congress on Thermoablation

The congress "the 10th Frankfurt Symposium on Endocrine Surgery and the 2nd International Congress on Thermoablation" took place on Saturday, June 25 at Deutsche Nationalbibliothek Frankfurt. We participated in this event as an exhibitor with a booth and invited Dr. Giovanni Mauri as a guest speaker, he gave a short presentation about thyroid RFA.

In addition to our direct presence at industry events, our local agents have been very active as well.

ISITES 2022

4th Symposium on Parathyroid Fluorescence

COSM 2022

The Combined Otolaryngology Spring Meetings

PAO Annual Meeting 2022

The PAO Annual Meeting was held in Hershey, PA from June 17-18. On the first day, RGS Healthcare hosted a luncheon symposium with guest speaker Dr. David Goldenberg. He introduced the benefits of Thyroid RFA as a non-surgical option for the nodules and training information to more than 60 interested physicians.

AAES 2022

American Association of Endocrine Surgeons

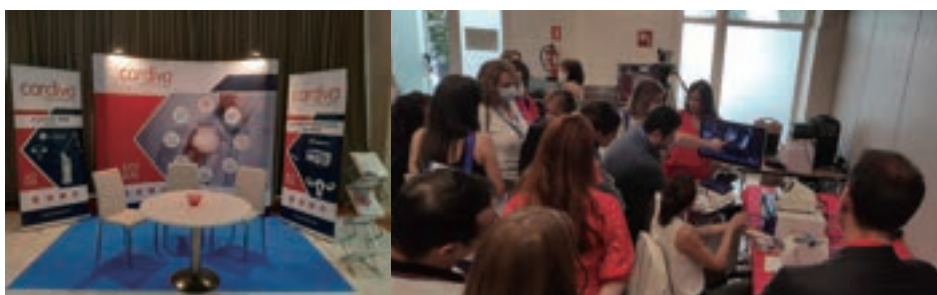

ENDO 2022

The Endocrine Society's Annual Meeting & Expo

31st Congress of Obstetric-Gynecological Ultrasound in Seville

The 31st Congress of Obstetric-Gynecological Ultrasound was held in Seville from May 26 to 28, in a collaboration with Cardiva. Drs. David Valdés and María José Rodríguez, from the Hospital Universitario Central de Asturias hosted a workshop on fibroid radiofrequency ablation.

The first myoma RFA in Germany

We were pleased to welcome several physicians to the RFA community. After receiving training from our EMEA Team, Dr. Hermsteiner and his team in Quendlinburg, Germany treated myoma. Based on satisfactory outcomes, the newly-trained doctors are confident about adding RFA to their practices.

TRAINING WORKSHOPS

7

In the first half of 2022, regional COVID-19 restrictions forced our training events to continue to be held virtually. As we all hope that COVID-19 is moving to an endemic phase, RF Medical is planning to return to in-person training workshops. Some regions are already allowing this, and it's clear that the best outcomes come from these in-person events as physicians are more easily able to show their techniques.

Online training for Myoma RFA by Dra Ida for Vietnamese doctors

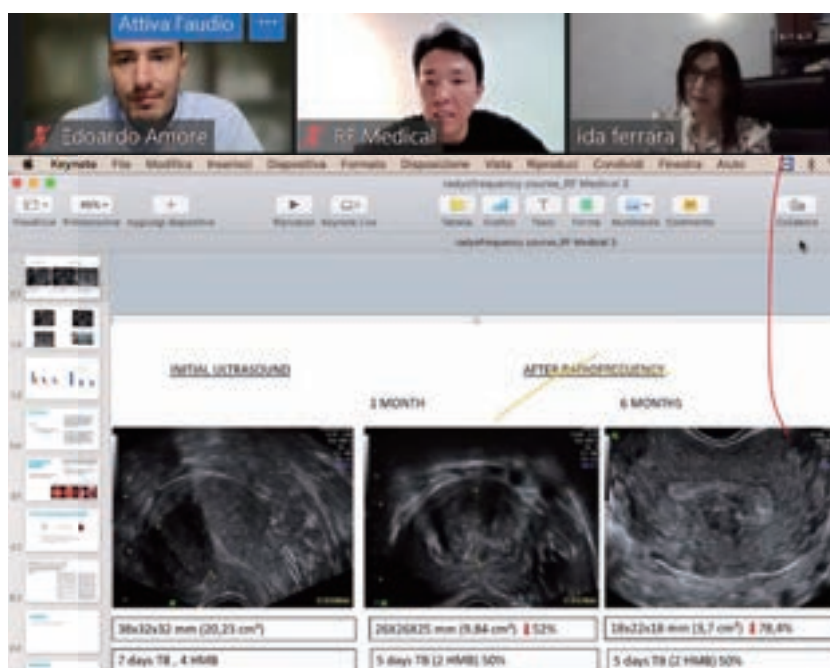

Seminars at Duc Phuc & Hung Vuong Hospital in Vietnam

Our virtual clinical Master Class was successfully held on March 19. 40 Vietnamese doctors attended this training course, and Dra Ida Ferrara shared her experience by providing useful tips and techniques for Myoma radiofrequency ablation with a practical case based approach. Physicians who successfully completed the course received a certification of completion.

During the 2nd quarter of 2022, there were two seminars in Vietnam for the physicians working at Duc Phuc Hospital and Hung Vuong Hospital. The seminars highlighted the latest technology and techniques of myoma RF ablation using the V-Guide, which is designed for safe and precise targeting of myoma. Invitations to future events will be sent out soon.

Johns Hopkins Cadaver Workshop

From April 22-23, Johns Hopkins School of Medicine hosted a Cadaver Workshop to provide up-to-date information regarding RFA of benign Thyroid nodules. The course is focused on this novel treatment modalities in an effort to provide knowledge and hands-on teaching for the safe delivery of radiofrequency ablation. RF ablation of Thyroid nodules was demonstrated on six cadavers during the course. RF Medical is grateful to those who donate their bodies to scientific advances.

Thyroid RFA Training Workshop in Ecuador

The 2-day RF Medical Thyroid RFA Certification course was held May from 06-07 in Quito, Ecuador. 15 physicians received case observation training from Dr. Christian Garcia. All attendees observed the live case with great concentration and interest. For those who could not join this training, we will continue to arrange more training courses in the future.

Thyroid RFA Training Workshop in Brazil

From May 19-21, a masterclass on Thyroid RFA was held in Rio de Janeiro, Brazil. Dr. Rangel gave an in-depth training to the attendees under the course titled of "New Technologies in Thyroid Surgery". The course included hands-on session with thyroid phantoms and comprehensive lectures about our minimally-invasive RF ablation technology.

Thyroid RFA consultation and live case observation in Cairo, Egypt

On January 19, Dr. Stefano Spiezia visited Cairo as a guest professor to give surgical consultations about benign and malignant thyroid nodules. Dr. Spiezia also performed a live radiofrequency ablation procedure at Saudi German Hospital Cairo.

Phantom training for myoma RFA took place on January 27 at Krankenhaus Marienstift in Braunschweig with Dr. Shaheen. After this training the clinic became another user of MYOBLATETH.

Thyroid RFA Training workshop in Budapest

From March 16-17, we held 2-day Thyroid RFA training and live case observation in Budapest, Hungary for a small group of European doctors and nurses. On each day, we had a session that consisted of 2 live case observations, hands-on training, lectures, and Q&A sessions where doctors learned about the advantages of RFA over other modalities such as MWA and Laser. As a direct result of the workshop, one of the attendees performed their first successful case shortly after the event ended.

UPCOMING EVENTS

10

SECOND HALF OF 2022 INTERNATIONAL

Jul
27-29

FIME 2022

Florida International Medical Expo

Location: Miami, FL

Venue: Miami Beach Convention Center

Sep
10-13

ETA 2022

44th Annual Meeting of the European Thyroid Association

Location: Brussels, Belgium

Venue: Centre de Convencions International de Barcelona

Sep
10-14

CIRSE 2022

The Cardiovascular and Interventional Radiological Society of Europe

Location: Barcelona, Spain

Venue: Centre de Convencions International de Barcelona CENTER

Sep
20-24

AOCR & KCR 2022

The 20th Asian Oceanian Congress of Radiology in conjunction with the 78th Annual Meeting of the Korean Society of Radiology

Location: Seoul, Korea

Venue: COEX

Sep 30

ACOG Districts IV & VII Annual Meeting

The American College of Obstetricians & Gynecologists

Location: Asheville, North Carolina

Venue: The Omni Grove Park Inn
